Buri Bell Large Pendant

Design by: Ay Lin Heinen & Nelson Sepulveda

Achieving weaves so close-knit a moire pattern sways through them when the material is as coarse as buri midribs, or the fibers of a palm tree native to Philippines, is quite a feat. Proof that it is possible is the Buri Bell Large pendant by Ay Illuminate, which is handcrafted by weavers who live in villages along the coast, the fish-net tying traditions of the area adding nimbleness to their abilities. The cottage industry in which they thrive is socially responsible, a hallmark of Ay Illuminate's commitment to sustainability. The Buri Bell is also available in small, and both sizes come in black.
