Sphere L 5x4 Pendant

Design by: Arik Levy

A handmade geometric globe designed by Arik Levy, the Sphere Large 5x4 pendant is a modern graphic statement with strong visual impact. The shade is made from bamboo. This fixture has a more open threaded shade, than the Sphere Large 5x2 pendant. Once illuminated, the Sphere projects endless pattern and texture-like shadows in any interior. Available in taupe, black or bright orange, this fixture can be used alone or in a group for maximum impact.
