

Forestier

Bamboo X-Small Pendant

Design by: Arik Levy

The Bamboo X-Small pendant, designed by Arik Levy for Forestier, brings the festive feel of a picnic indoors with its natural lantern-like appeal. Surrounding its woven diffuser is a striated shade that creates textural shadows, not unlike tree limbs whose imprints are reflected along the ground as light captures their doppelgängers. The shade is capped in flourishes of black, green, red or white and is available in a small, medium and large size, as well.
