

# Grupa

## Baluna Ceiling

Design by: Filip Despot, Ivana Pavic & Tihana Taraba

A modern and technical interpretation of a classic form, the Baluna Ceiling light by Grupa is a sculpture of wonder. Made by master craftsmen, every element has been carefully designed and manufactured to illuminate performance and style. The powder-coated steel body is shaped, welded and assembled by hand. A triple coated, handblown opal glass diffuser rotates around its axis indefinitely. Dimming can be achieved using a wall dimmer.

### Ordering Matrix

#### Model

BA-C

Dimming: Yes, with wall dimmer. No dimming on fixture.

#### LED

1 x 5W E12 Torpedo

#### Shade

BLK = Black

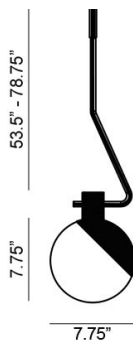

### Fixture as shown

BA-C	LED	BLK
Baluna Ceiling	1 x 5W	Black

### Shade

Black
