## MK 5-Light Horizontal Pendant

The long, dramatic drop of the MK series of hanging lights was inspired by the iconic Hill House chair and its famously high back. But designer David Abad diverges from this vertical influence with the 5-Light Horizontal pendant, in which perpendicular bars intersect the fixture to create a commanding, ultra-modern chandelier. With five hemispheres cohesively providing multidirectional illumination, this pendant is a sculptural centerpiece that is both aesthetically and functionally suited to large spaces.
