

Pholc

Donna Circle 100 Pendant

Design by: Stina Sandwall & Nina Jobs

The Donna Circle 100 was designed by Stina Sandwall and Nina Jobs. Though the pendant reads as if it is made from ceramic, it is crafted from ribbed aluminum that comes in black and a pale ivory hue called linen. The designers challenged themselves to transform a hard material into a soft feeling, their inspiration the flowing elegance of fabrics that float from the human form. We also offer the Donna, produced by Pholc, in single pendants, in a smaller circle pendant and in a long linear configuration.
