

Pholc

Hans Floor

Design by: Monika Mulder

Like a wave moving across a distant sea as silently as the power that births it, the Hans Floor is the brainchild of Monika Mulder, who envisioned the shape to reflect the natural fluidity of the ocean's undulations. Made of aluminum, the Hans comes in matte black. Manufactured by the Swedish brand Pholc, the fixture with its artful shade illustrates how graceful a resolute material like metal can feel when crafted by a visionary designer.
