

# Willowlamp

## Lantern 400 Pendant

Design by: Adam Hoets

Mimicking the lines of a Chinese lantern, the Lantern Pendant 400 brings the exotic flair of the Far East to a space. Designed by Adam Hoets for Willowlamp, this fixture is made of metal beads dangling from flat metal bands that dictate its undulant shape. The pendant is available strung with silver, smoke, copper, brass, rust, white, red, and black beads. Custom colors available upon request. The asymmetrical strands dangling below its bottom band is a highly refined design note that is a hallmark of this designer's sense of style.

### Ordering Matrix

#### Model
