## Disca Table

Design by: Alberto Nason

Mimicking the shape of a far-off star, the Disca T table lamp is a shining apparition that brings celestial beauty into a space. Designed by Alberto Nason, the Disca table lamp is available with green, milky white, clear or amber lava glass shades that balance on a wood base like a spinning top that is frozen in motion. The quality of the glass is exceptional, the linear striations lending these fixtures added texture and personality, which is challenging to achieve with glass. We also offer the Disca in small and large pendants.

### Ordering Matrix

#### Model

DSC T10 = Green  
DSC T20 = White  
DSC T40 = Clear  
DSC T50 = Amber

#### LED

1 x 4.5W E26, A19

#### Color

GRN = Green  
WHT = White  
CLR = Clear  
AMB = Amber

### Fixture as shown

DSC T10	LED	GRN
Disca Table	1 x 4.5W	Green

### Color
