

# Hind Rabii

## Fico 1 Pendant

Designed by Chiamonte Marin Studio for Hind Rabii, the Fico celebrates the fig, as its name in Italian indicates. Rather than concealing succulent pulp, the elongated ceramic shades channel the fixture's illumination. The Fico is available in three bell-like shapes, the Fico 1 swelling smoothly at the bottom. Each shape comes in white, black and sand-colored ceramic. Rather than hanging by a cord, the clever Fico pendants are hung on straps of handsewn leather, fixed in place by a galvanized pin. The effect is meant to give the impression that each pendant is a piece of fruit dangling from a tree.
