

Hind Rabii

ICE 24 Pendant

Design by: Hind Rabii

The acronym ICE is Belgian for praline. Springing from the mind of Hind Rabii, the ICE 24 pendant is a paradoxical bonbon of a fixture given its contemporary lines achieved in metal in a variety of exterior and interior shade colors. The dynamic shell brims with excitement when its light bursts forth. The ICE 24 can be ordered with a black exterior with either a copper or carbon interior, with a white exterior with either a copper or carbon interior, with a mint exterior that has a copper interior, and with a bright blue exterior that has a carbon interior. The ICE is available in a number of different configurations.

Ordering Matrix

Model

ICE24ICN20 = Black/Copper
ICE24ICN20K = White/Copper
ICE24ICN20C = White/Carbon
ICE24ICV20C = Green/Copper
ICE24ICN20AB = Blue/Carbon

LED

1 x 3W G9

Color

BLK/COP = Black Copper
WHT/COP = White Copper
WHT/CRB = White Carbon
GRN/COP = Green Copper
BLU/CRB = Blue Carbon

Fixture as shown

ICE24ICN20	LED	BLK/COP
ICE 24 Pendant	1 x 3W	Black Copper

Color

Blue Carbon
