

# Northern

## Butterfly Wall

If a fluttering creature decided to morph into a wall sconce, the Butterfly wall light designed by Sven Ivar Dysthe would be the form it would long to embody. Fashioned from steel, the fixture is surprisingly festive for its modern lines. The shades are clasped by clean-lined arcing plates that surround it like wings. The glow of the light from its interior reflects luminously off the curved plates that flow out from the wall.

### Ordering Matrix

#### Model

320 = White  
322 = Brass  
323 = Dark Green

#### LED

1 x 4.5W E26, A19, 2700K  
\*GU24 base available upon request.

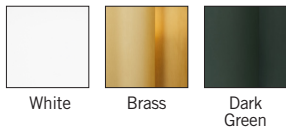

#### Finish

WHT = White  
BRA = Brass  
DRK GRN = Dark Green

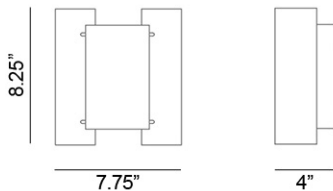

#### Fixture as shown

322	LED	BRA
Butterfly Wall	1 x 4.5W	Brass

#### Finishes

Design by: Sven I. Dysthe
