

Northern

Dahl Large Pendant

Design by: Birger Dahl

The shade of the Dahl large pendant is made of mouth-blown glass with an etched surface to give it a smooth matte finish. The pendant became an iconic element in the Norwegian Parliament building when it was renovated in 1958, its minimal form lending a timeless feel to the interiors. The metal pieces on the fixture are available in brass matte, dark gray, and white. Manufactured by Northern.

Ordering Matrix

Model

445 = Brass Matte
446 = Dark Gray
