

Hind Rabii

Reflector 250 Pendant

Design by: Hind Rabii

Playing with shapes is a hallmark of the Hind Rabii brand, the Reflector 250 pendant one of the simpler shapes in the designer's repertoire, though the fabrics cladding the cylindrical fixtures add the hint of sophistication for which she is known. The pendant is available clad in printed fabrics that imitate animal skin and velvets, the tone-on-tone patterns offered in black and silver. The interior of the shade is available in a copper finish that adds warmth to the illumination and a carbon finish for a smoky glow. We offer a number of sizes as pendants and in a wall and ceiling versions as well.
