Amarcord Wall

Design by: Matteo Ugolini

The Amarcord Wall fixture, designed by Matteo Ugolini, may harken back to a bygone time when oil lamps, gripped in the hand or swaying from horse-drawn carriages, lit the dark, but this honestly designed light that can be a showcase for any number of Edison bulbs is its forward-reaching counterpart. Available in white concrete with clear glass and natural concrete with smoke glass, the Amarcord's globe topping its concrete base is proof that Ugolini is a designer's designer.

Ordering Matrix

Model

AP1211B = Clear Glass/White Concrete
AP1211G = Smoked Glass/Natural Concrete
