Dies E Nox Pendant

Design by: Edmondo Testaguzza

Designed by Laura Alesi & Silvia Braconi, the Dies e Nox pendant in clear is as luminous as the waxing and waning sun and in tobacco as mysterious as the moon that coaxes the ebbing and flowing of the ocean.

Exemplifying an entire day's helping of light that spans from the clarity and freshness of morning to the sweet amber light of the setting sun on the horizon line, this fixture from Karman is available in a clear and a tobacco-colored glass.
