

# Hind Rabii

## T-Cotta 4 Pendant

Design by: Chiamonte Marin Studio

Like a bauble of light that levitates above a space, the T-Cotta 4 pendant is shaped like a whimsical flying saucer. Designed by Chiamonte Marin Studio for Hind Rabii, it has a ceramic cap in a variety of colors and is available with an opalescent or a clear glass bottom diffuser. The colors include terracotta, black, gray and green. There are four different shapes of pendants in this collection that makes this a perfect design for grouping. We also offer the T-Cotta as a wall light.
