

Zero

Bob Floor

Design by: Thomas Bernstrand & Stefan Borselius

Zero Lighting brings the Bob floor lamp into being in collaboration with Bernstrand & Borselius, a design firm renowned for making interesting light fixtures for modern interiors. This pendant illustrates Zero's skill at creating a machined artistry that has as its hallmarks clean lines and engineered precision, which makes their fixtures so popular with architects. We also offer the Bob in a pendant, and both the lamp and the pendant come in black or white.
