

Zero

Convex Circle 1400 Pendant

Design by: Jens Fager

Made of painted metal, the Convex Circle 1400 pendant was designed by Jens Fager for Zero Lighting. Dropping its cone-shaped shades from a simple round ring, the Convex is modern architecture's answer to make it clean but make it interesting. We offer the Convex Circle in two sizes, this one measures 1,400 millimeters in diameter, and in black, white or galvanized finishes. A single Mini Pendant is also available.

Custom configuration options are available. Please see pages 2-4 for examples.

Ordering Matrix

Model

840950130US (White)
840950630US (Black)
840958330US (Galvanized)

*Cord Color: White, Black or Clear

LED

9 x 6.5W GU10 / 3000K / 500 Lumens

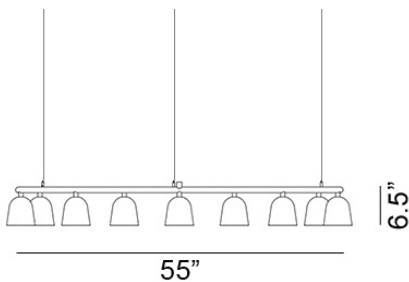

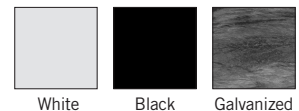

Color
