

# Zero

## Ginza Ceiling/Wall

The Ginza ceiling/wall, designed by Thomas Bernstrand, has the smarts to allow light to flow in all directions, given the adjustable shade. Made of painted aluminum and metal, the fixture is available in black, white and orange. A matt diffuser softens the glow of the illumination. This fixture would look oh-so-smooth in a modern loft or a industrial bar in a restaurant with an edgy vibe.

### Ordering Matrix

#### Model

843310130US (White)  
843310630US (Black)  
843314130US (Orange)
