Elements Small Pendant

Note Design Studio is exercising its fascination with the Nordic mountains and the region's light once again, creating a riff that is relevant at dusk, midday and right up to the midnight sun's appearance! This improvisation takes place within the Elements family of fixtures, which includes the Elements Small pendant. Standard colors for this family of textile fixtures are blue and white but other colors are available upon request.

Ordering Matrix

Model

8330101 = (White)
