Elements XL Floor

Note Design Studio is exercising its fascination with the Nordic mountains and the region's light once again, creating a riff running from dawn to dusk and midday to the midnight sun in the form of the Elements XL floor lamp. Standard colors for this family of textile fixtures are blue and white but other colors are available upon request. The fixture is also available in a Large and Small table version

Ordering Matrix

Model

8333501 = (White)
